## ORDERS SALE OF STOCK TO CEASE.

Warning that sale of the stock of the Mutual Oil and Refining Company, with offices at 108 Walnut street, Lexington, is a violation of the Kentucky Blue Sky laws and all sales must stop, was given C. L. Bell, president of the company, in a letter from James P. Lewis, State Banking Commissioner, who is in charge of enforcement of the Blue Sky law. The letter, given to the press simultaneously with its mailing to Mr. Bell, asserted that the sale of the stock had been indefinitely suspended while the department considered the question of revoking the license of the company.

The letter from Mr. Lewis, who has been investigating the affairs of the company for sometime, was written as the result of a letter purporting to have been written by officials of the company to its stockholders proposing to sell stock at fifty cents a share. The commissioner's letter says that the department refused a permit to sell at twenty-five cents a share and says that "it is apparent from your financial statement and special reports of the condition of your company's affairs that the stock is not worth more than fifteen cents per share, based upon your valuation, which valuation this department believes is excessive." Mr. Bell lives at 1001 Cramer avenue, Lexington, though his home originally was in Paris.

## AUTO HITS FIRE PLUG.

In the early hours Saturday morning a passing automobile struck a fire plug on Mt. Airy avenue, breaking it off, and throwing it a distance of several feet. The breaking of the plug released a flow of water that for a time looked like a small flood.

Superintendent Newton Mitchell, of the Paris Water Co., was notified and had the water shut off until the break could be repaired. The street for some distance was covered with ice as a result of the break, making travel exceedingly difficult. Housekeepers were greatly inconvenienced during the time the water was shut off. The identity of the party driving the auto was not learned.

## REAL ESTATE TRANSACTIONS

Through the real estate agency of Mitchell, Moreland & Mitchell, of this city, David Butler sold to Rolla Kenton, a two-story frame house located on South Pleasant street, near Twelfth, for \$4,000. Possession will be given about March 1, when Mr. Butler will move to his farm near Paris.

## HEAVIEST SNOWFALL OF WINTER.

Beginning in the early hours Saturday morning the heaviest snowstorm of the winter visited this section, continuing until Sunday morning, when lower temperatures interrupted. The snow was from three to four inches deep, and in some places was drifted to a depth of from two to three feet. Reports from all points in the State indicate the snowfall was general and of an average depth everywhere. There was no interruption to traffic or telegraph or telephone service. The young folks had a great time coasting and in other winter sports. Rural mail carriers on the routes from the Paris postoffice experienced considerable difficulty in making their schedules yesterday. Douglas Thomas, one of the carriers, had to turn back after going but three miles on his route. Other carriers experienced similar troubles, and in some cases failed to go the whole route. On several of the county Snowplows belonging to the county were put to work on the North Middletown pike breaking out a passage through the heavy drifted snow.

## FOR FREEDOM OF IRELAND

The next regular meeting of the Barry Council of the American Association for Recognition of the Irish Republic will be held in the Catholic School hall, on High street, Thursday night, February 24, at eight o'clock.

At the last meeting, held in the Knights of Columbus hall, on Main street, the names of thirty new members were read and approved. An interesting report of the State meeting held at Lexington recently, was made by the local delegates who attended. James Hanley, of Lexington Council, delivered an excellent address.

Commodore Barry Council will welcome to its membership all whose sympathies are with the cause of the mother country in its struggle for freedom. The membership is growing rapidly, with prospects of Paris ranking among the topnotchers soon in the matter of strength and enthusiasm.

## NINETEEN TWENTY-ONE

Dry goods at the right nineteen twenty-one prices will be shown at "The Leader." Watch for the opening announcement. (11)

## STATE UNIVERSITY GLEE CLUB IN CONCERT.

The Men's Glee Club of the University of Kentucky will give a concert Thursday evening, February 25, at seven o'clock, in the North Middletown Christian Church. The concert will be under the auspices of the Mothers' Club. No admission will be charged. The public is cordially invited.

## TAKING DEPOSITIONS IN GOODMAN CASE.

Attorney Northcott, of Covington, was in Paris, Saturday, taking depositions of a number of Paris citizens, in the case of B. Frank Goodman ("Goodie") formerly of this city, now a resident of Covington. Goodman is suing the Louisville & Nashville railway for \$5,000 damages as a compensation for damages alleged to have been sustained through the alleged carelessness of employees of the company. Goodman was hurt last April while working in the Covington yards.

Goodman, familiarly known to nearly every baseball "fan" in Central Kentucky as "Goody," was for four seasons the crack right-fielder for the Paris team in the old Blue Grass League. He had been employed as a brakeman by the Louisville & Nashville. While working in the company's yards in Covington, he alleges he was thrown from a car, receiving injuries which has totally incapacitated him from following his occupation as a ball player in the future, thereby causing him financial loss as well as his great bodily and mental pain. Depositions of a number of Paris "fans," physicians and newspaper men were taken relative to Goodman's ability, his record while a player with the Paris club, and along other lines. The L. & N. was represented at the taking of depositions by Attorney F. M. Dickson.

## EFFORTS RESUMED TO BUILD WAR MEMORIAL

Efforts will be resumed toward the construction of a memorial in Bourbon county in honor of soldiers who lost their lives in the world war. Plans for such a memorial were discussed shortly after the close of the war, and later a memorial fund, aggregating more than \$10,000 was subscribed, and more than half paid over.

There was a wide divergence of views as to what form the memorial should take, and, due to the high prices of materials of all kinds, no definite steps have ever been taken toward construction. In recent weeks discussion of the proposed memorial has been revived and the directors of the Paris Commercial Club have given the matter consideration at the request of some of the subscribers.

The directors have decided that, in the event the proposal meets with the approval of those most interested, a referendum vote of all subscribers should be taken to determine the form of memorial. Among the suggestions that have been made are these: A monument in the court house yard; an educational fund; a playground for the children, with a suitable memorial tablet; a memorial bridge over Stoner creek, at the foot of Main street; memorial parks; memorial markers of different designs. These suggestions will be incorporated in the referendum, and blanks will be left for any further suggestions. After the referendum has been returned, the Commercial Club directors will recommend the construction of that form of memorial which received the largest number of votes.

## PRISONERS TAKEN TO FRANKFORT.

James Arthur and Eliza Bedinger, colored, who were arrested last week by Chief of Police Link and Patrolman Robert Lusk on a charge of setting up and operating a moonshine still, were turned over to U. S. Marshal Hanlon. They were taken to Frankfort, where they were after a preliminary examination held to appear before the grand jury at the March term of the U. S. District Court. They were placed in the Frankfort jail.

Arthur and the Bedinger woman, it was stated, made a confession to Marshal Hanlon, in which they acknowledged making and selling "white whiskey" in Paris since last Christmas. Marshal Hanlon returned to Paris to gather more evidence against the accused.

Mitchell Allen, colored, of Paris, was later arrested on a charge of being implicated with Louis Bedinger and James Arthur in making and operating the still. He was taken to Frankfort and given a hearing before U. S. Commissioner Wiard. Louise Bedinger was dismissed and Arthur and Allen held to the next term of the Federal Court. Both are in the Frankfort jail.

## THE TOBACCO MARKETS

The Bourbon Tobacco Warehouse Company sold Friday on the floors at the Bourbon house No. 3, a total of 132,890 pounds of tobacco for \$12,730.87, an average of \$10.32. The market showed a slight improvement with a larger offering of the higher grades. There was a considerable quantity of inferior tobacco on the floors, and the average was correspondingly low. The crop averages ranged from \$19.20 to \$22.62. This average was realized on a crop of 1,345 pounds belonging to Ray & Conway.

Exclusive of the sales held yesterday there has been sold on the floors of the local tobacco warehouses, for the season a total of 6,308,825 pounds of tobacco, for an average of \$12.60 per hundred pounds. Of this amount the Bourbon Tobacco Warehouse Co. sold 3,840,780 pounds at an average of \$12.51, and the New Independent Tobacco Warehouse Co. 2,468,145 pounds, for an average of \$12.88.

Sales of tobacco on the Paris market during the past week showed a slight advance, grade for grade, over the prices of the week before. The average for the week was a decrease of one cent from that of the previous week's sales, but a large amount of inferior tobacco went over the breaks at all the houses. Good weather during the week was probably largely responsible for the unusually large receipts, but now that a big snow and a cold spell has arrived it is expected that the rush will be lessened for a few days.

It appears that the best of the crops have already been brought in and sold, and now the farmers are getting rid of some of their low grades. A big effort was made early in the season to keep the inferior grades off the market in the hope that this might cause an advance in the prices of the better grades. It is the opinion of the growers and warehousemen that the markets in the future will show more strength.

The Bourbon Tobacco Warehouse Co. sold yesterday on the Bourbon floor 289,335 pounds for \$29,120.43, an average of \$13.51. The general quality of this floor of tobacco was somewhat better than usual.

## POSTMASTER SAYS STREET NUMBERING INCOMPLETE

The street numbering system of the city of Paris, according to Postmaster J. Walter Payne, is not as complete as it should be. "The fundamental principle of city mail delivery," says Mr. Payne, "is to have the houses of the city properly numbered and street signs properly placed on the corner of each street." "The cost of installing the house numbers is such a small sum in comparison to the aid it gives the mail carriers," said Mr. Payne, "that every housekeeper or property-owner should see that their property is properly numbered." Mr. Payne thinks that in most cases where the numbers are missing it is due to thoughtlessness on the part of the owners, and that if the matter is brought to their attention he believes they will comply with the request.

The loyalty in business means standing up for your own opinion before your employer and for your employer's opinions before the world.

## SOMETHING NEW IN THE MOVIES.

The Latin Department of the Paris High School announces the showing, in the near future, of a moving picture version of the Sixth Book of Vergil's "Aeneid."

This film was produced in January by the Girls' High School of Atlanta, Ga. There were two hundred characters in the cast. Dr. Charles Knapp, of Columbia University and Barnard College, president of the Classical Association of the East, and one of the most eminent Latin scholars, to whom the reels were submitted for approval, pronounced the work "wonderful." The same appreciation has been expressed by the public wherever it has been shown. It is an evidence of the progressive spirit of the Paris High School, that Paris is the first school in Kentucky which has engaged the picture.

While it is to be shown primarily for the pleasure and benefit of students, the general public will be invited. We trust many will be interested in following Aeneas in his trip through the underworld, his passage of the River Styx in Charon's skiff, his meeting with Cerebus, the three-headed dog, his conversations with the shade of those whom he had known in life, including Dido, and the heroes of Troy and Anchises, his father, who explains the system and divine life of things, unrolling the future glory of the very Rome in which Vergil lived and wrote.

It will be recalled that in imitation of Vergil the episode of a visit to the underworld has been a favorite device of modern poetry. In such cases many features of Vergil's descriptions have been borrowed. This is true of Dante's "Inferno," Spenser's "Faery Queen," Sackville's induction to "The Mirror for Magistrates," and Pope's "Dunciad." Therefore to dwell in the Elysian Fields of appreciation of countless references this visualization of the greatest Latin epic offers a very real opportunity. Watch for the date.

## ATTEND THIS SALE ON FEBRUARY 26TH

## OLEIKA TEMPLE CEREMONIAL TO-DAY.

Oleika Temple will hold a ceremonial in Lexington to-day. This will be one of the big events of the year. It is expected that nearly 100 novices will cross the hot sands of the desert. The program for the day will be started by a meeting of the candidates at 10 o'clock at the Masonic Temple on North Broadway and all Nobles and candidates will leave the Temple at noon for a big turkey dinner, prepared by the ladies of the Broadway Christian Church, which will be served in the church basement, corner of Second and Broadway. A nice musical program has been arranged and immediately after the dinner the nobles will adjourn to the Lexington Opera House, where the big ceremonial will take place promptly at 2:30 o'clock.

In the evening there will be a big dance for the Nobles and their ladies, at the Masonic Temple on North Broadway from 8:30 o'clock until 1 o'clock. Everybody is urged to come.

## LEGAL HOLIDAY TO-DAY.

To-day, Tuesday, February 22 is a legal holiday, being the birthday of George Washington, "first in war, first in peace, and first in the hearts of his countrymen." The banks will be closed, and there will be no rural mail deliveries. The postoffice will be open only at noon, and there will be only one delivery of mail in the business section.

# Cut Flowers!

We order from either Christman, of Paris, or from Lexington florists, your choice. Quick delivery and careful attention to all orders.

## INTENSIVE CAMPAIGN TO LIVE UP TOBACCO GROWERS

In the event that sufficient pledges to reduce the 1921 acreage of burley tobacco are not secured by the Burley Tobacco Growers' Association meets on March 7, an intensive campaign will be put in operation in every county with the object of lining up all the tobacco growers behind the association's reduction project.

The pledges, of the form adopted by the officers and board of directors of the association in their meeting Saturday are being mailed out to every burley producing county in this and adjoining States, said J. W. Newman, president of the organization. With the pledges will go printed suggestions for the information of the county organization and solicitors.

At the annual meeting of the Growers' Association, the first Monday in March, plans will be made for contests between counties to stimulate enthusiasm in the signature-signing campaign. Sixty per cent of the growers are necessary as signers of the pledges before they are binding on the organization and the officials feel confident that the required number will be secured before April 1, the date set as the latest time that can be allowed to secure the pledges.

## WELLESLEY COLLEGE CAMPAIGN.

Mrs. C. O. Hinton, of Paris, is one of the chairmen of the Wellesley College campaign, which is being conducted simultaneously in Kentucky, Indiana and Tennessee. The Kentucky campaign is under the leadership of Mrs. Robert H. Winn, of Mt. Sterling, formerly of Paris. Mrs. Winn reports the first week's canvass of alumnae for the \$2,700,000 semi-centennial fund as progressing nicely, chairmen in all parts of the State having sent in encouraging reports to the headquarters.

As chairmen for the district Mrs. Winn has announced that the \$2,700,000 gift to Wellesley College represents Wellesley's "imperative minimum" for salary endowment and for new buildings and for new buildings to replace the losses of the 1914 fire.

## THAT DULL ACHING

Don't worry and complain about a bad back. Get rid of it! For weak kidneys, lame and aching backs, your neighbors recommend Doan's Kidney Pills. Ask your neighbor! Read this statement:

Mrs. John Mastin, 1439 High St., Paris, says: "I have used Doan's Kidney Pills with very good results, for while I have never had any serious kidney trouble I can tell by the help they gave me that they would be beneficial for kidney trouble. I had a dull aching across the small of my back and my kidneys acted irregularly. The use of Doan's Kidney Pills rid me of these complaints and I have faith enough in them that should I ever need a kidney remedy I would certainly use Doan's Kidney Pills."

Mrs. Mastin gave the above statement November 9, 1916, and on November 13, 1920, she added: "I still have the same good opinion of Doan's Kidney Pills as when I endorsed them before and I use them occasionally when I require a kidney tonic. They never fail to do me good and I am always telling my friends of the merits of Doan's."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mastin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

## Eskimos Regard Life Lightly.

The Eskimos, who have not yet come under Christian influence, are said to be filthy and treacherous. They practice polygamy and infanticide, and they kill off the aged and infirm when they are unable to hunt. But the Christian Eskimos are clean and self-respecting, and 75 per cent of them can read and write in their own language.

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. (adv)

## MERRY SEX WAR ON

Bureau of Engraving and Printing in Throes of Controversy.

Plate Printers' Union Charges That There Are Too Many "Trifling Girls" in the Bureau.

Washington.—A merry sex war is in progress in Uncle Sam's money factory.

The war started when the Plate Printers' union in the bureau of engraving and printing made formal charges that there were too many "trifling girls" in the bureau and that they were retarding the efficiency and the amount of production of paper money. In their charges the plate printers intimated that too much time was spent by girls employed in the bureau in administering "little dabs of paint and powder." In fact it was intimated that the plate printers objected to "flappers" being employed in the bureau.

The plate printers let themselves in for trouble.

Federal Employees' Union No. 105, embracing the women employees of the bureau, at an indignation meeting, condemned the attitude of the plate printers, denied their charges and deplored their giving publicity to what they alleged to be a misstatement of facts.

Miss Gertrude McNally, secretary of the union, declared that the records of the examining division showed that the greatest percentage of spoilage of printers' work is for "sly-wipes," "lifts" and "breaks," which spoilage could in no way be attributed to the assistants.

"Plate printers are paid by the piece rate and in many instances the presses are speeded up for production at the expense of the quality of the work," Miss McNally stated.

It is predicted that the charges of the Plate Printers' union will result in considerable friction in the future between the printers and their assistants, since if inefficiency does exist the responsibility for the same has been placed by one side on the other.

## FINDS GROOM IS BELOW PAR

Swiss Father Sues Detective Bureau for False Recommendation of Daughter's Suitor.

Geneva.—M. Wader, a wealthy resident of Bienne, Switzerland, has just sued a detective agency for wrongly recommending a man as husband for his daughter and has obtained a verdict of 140 pounds, with costs, against the agency.

The prospective father-in-law engaged the agency at a cost of 500 pounds to investigate the reputation and habits of the young man who had asked for the hand of his daughter. The detectives reported that the youth was worthy, reliable and sober.

After six months of wedded life, the bride returned to her father's home with the information that the bridegroom has dissipated her dowry in riotous living and gambling.

## Three Meals Means Wife Does 2-Mile Walk Daily

Montgomery, Ala.—Preparation of meals for an average family means a two-mile daily kitchen marathon for the housewife, according to statistics compiled for the conference of vocational workers of the south, in session here. A pedometer attached to students in the kitchen of the model home at Livingston school showed this measurement for the stove-sink-and-pantry route covered during the period from bacon and eggs to dinner and dessert.

## German Residents in Paris.

Paris.—Germans to the number of 1,965 have succeeded in obtaining permission to reside here, according to the Prefecture of Police registration of foreigners in Paris. Italians lead the list with 41,550, while the United States is fifth with 23,630. Other nations include 36,680 Belgians, 29,000 Swiss, 27,650 English, 23,000 Russians and 14,000 Poles. There are 88 Austrians and 254 Bulgarians besides 7,862 South and Central Americans.

## DR. FREDERICK JACOBSON SAYS

75% OF WOMEN NEED PHOSPHATES TO GIVE THEM STRONG, HEALTHY, ROUNDED FIGURE AND TO AVOID NERVOUS BREAK DOWN—THOUSANDS OF WOMEN GROW STRONG IN NATURE'S WAY.

"Consider the Lilies of the Field, How They Grow."

The life of the lily is but a few weeks or months. The life of woman is "three score years and ten." But to live one's life in its fullness, woman like the lily, must be nourished by those same vital elements which nature provides for nourishing every living thing; and these include the valuable phosphates so often lacking in the usual food we eat to-day. Argo-Phosphate is rich in these wonderful elements. It contains them in concentrated tablet form which is easy to take and quickly assimilated and absorbed into the system, and from youth to old age, builds and rebuilds body brain in beautiful harmony with Nature's perfect plan. "That's why" Argo-Phosphate makes good solid flesh and muscles.

SPECIAL NOTICE — Argo-Phosphate contains natural phosphates which thousands of physicians are prescribing daily to build up thin, pale, colorless women to give them rosy cheeks, red lips, and a beautiful complexion. Many cases have been reported where women have increased their weight from 15 to 25 pounds with a few weeks treatment, and any woman who desires a well rounded and developed form, should secure from her druggist, this new drug which is inexpensive and is dispensed by Brooks & Snapp Drug Co., with or without a doctor's subscription. ## Teaches Birds to Sing.

Taking advantage of the imitative faculty of song birds, a simple mechanism has now been contrived that actually teaches canaries and other pet warblers how to increase their singing repertory, says Popular Mechanics Magazine. A partly water-filled cylindrical metal tank, in which a slightly smaller inverted tank slides up and down, provides enough air pressure for blowing a series of whistles of different tone.

**BOND ISSUE IS NOT NECESSARY**

**GOOD ROADS PROGRAM HAS NOT FALLEN DOWN SAYS STATE ASSOCIATION.**

**McBYRDE GIVES FIGURES**

Kentucky Compares Favorably With Other States in Record of Construction and Prospects For Ample Funds to Continue For Next Ten Years.

Louisville, Ky.—The Kentucky Good Roads Association was the first organization in the State to concentrate its efforts on the creation of a State Highway Department and the building of a State-wide system of highways. It has seen the movement for good roads in Kentucky grow from a few voices crying in the wilderness into as good a system of highway administration as is enjoyed by any of the States.

Naturally, together with all other Kentuckians, its membership has been much concerned recently by the repeated reports made to the public and the press that the whole system is "going to pot" for lack of funds and that the only thing that will save it will be an extra session of the Legislature to submit to a vote of the people a bond issue estimated at anywhere from \$25,000,000 to \$60,000,000.

Investigation made by Robert J. McBryde, President of the Good Roads Association, has disclosed the fact that not only is Kentucky not in need of a bond issue to build roads, but that it now has more money for this purpose and is building more roads and better roads than ever before in its history. If the present pace can be maintained, Kentucky's entire system of highways will be completed within the next ten years.

Actual conditions as taken from the official record are as follows:

Total State Aid Road Fund now available for road construction .....	\$2,100,000.00
Total Federal Road Fund now available for road construction .....	3,028,257.31
County appropriations made but not yet under contract .....	2,998,007.00
Total available road fund .....	\$8,126,264.31

The State Highway Department during 1920 has had under contract a total of 649.91 miles of Federal and State Aid Roads at a total cost of \$7,687,567.28. Of this mileage 347.8 have been completed.

In addition, the State Highway Department has co-operated with the counties in the maintenance of 104.91 miles of state highways built under the provisions of the former State Aid Maintenance Law.

At the beginning of the year 1921 the State Highways Department has completed surveys and plans and is ready to advertise for bids on 197.7 miles of Federal and State Aid Roads. Surveys have been made and plans partially completed for an additional 330.9 miles of such roads and surveys have been completed on another 234.3 miles.

There has been favorably reported by the Roads Committee of both the United States House of Representatives and the United States Senate a bill increasing by \$100,000,000 per year the Federal appropriation for roads. If this bill becomes a law, Kentucky's Federal Aid quota will be increased \$2,000,000 annually. The amount produced by general and special state taxes will of necessity increase each year.

Kentucky in the past year has had \$8,000,000 to spend for roads, and there is every reason to believe that within the next three years Kentucky's annual road fund will be not less than \$10,000,000.

For the first time in its history Kentucky not only has a completely equipped State Highway Department, but all of the money that is needed to administer it successfully.

**COLDS**

"Pape's Cold Compound" is Quickest Relief Known

Don't stuff up! Quit blowing and snuffing! A dose of Pape's Cold Compound taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine. In stock upon Pape's!

Arbitrage. This is a term applied to transactions taking advantage of difference in price in different markets for the same articles. At the same time that the trader buys in the cheaper market he sells in the dearer. The margin between the two prices must be more than the cost of exchange in order to show a profit. Arbitrage transactions are usually in bullion or coin, bills and exchanges or stocks and bonds.

# **AUTOMOBILE AND TRUCK LICENSES IN BOURBON**

In a statement recently issued from the office of the Automobile Department of the State Tax Commission at Frankfort, Bourbon county is credited with 1,296 automobile licenses, and 135 trucks.

Automobile licenses issued by county clerks in Kentucky up to January 29, totalled 86,562, according to figures given out at the office of the Automobile Department of the State Tax Commission. Passenger car licenses issued totalled 75,850 and truck licenses 10,712.

Although the time for obtaining 1921 licenses, as regards to cars running on the public highways, was extended by the department to January 10, thousands of car owners have not yet taken out licenses, according to officials of the department. This is due, they say, to the fact that many persons, especially in the hilly portions of the State, store their cars for the winter and do not take out licenses until the summer get good in the spring and summer. The cars are not run, consequently no license is needed.

## **DEATHS.**

### **MITCHELL**

The funeral of Harry A. Mitchell, aged sixty-two, who died late Thursday night at his home on Vine street, in this city, was held Sunday afternoon at two o'clock, with services conducted at the grave in the Paris Cemetery by Rev. W. E. Ellis, pastor of the Paris Christian church.

Mr. Mitchell had been ill for some time with neuralgia of the heart, and his death was not unexpected. He is survived by his widow, Mrs. Lucinda Mitchell, and seven children, Mrs. Ella Mitchell, Mrs. Ruth Farrow, William Mitchell, Riley Mitchell and Charles Mitchell, all of Bourbon county, and Mrs. Eva Snapp, of Spencer county.

### **BATTERTON**

Wallace Batterson, aged seventy-five, died at his home near Shawhan, Thursday night at nine o'clock, following a protracted illness due to a complication of diseases.

Mr. Batterson was a veteran of the Civil War, having served in the Confederate army during the entire four years of that great struggle. He was a regular attendant at all the meetings of the local Camp United Confederate Veterans until failing health prevented.

Mr. Batterson had been engaged in farming nearly all his life near Shawhan, and was well-known throughout the county. He was a son of the late Eli E. Batterson. Mr. Batterson is survived by one sister, Mrs. Josie Sevier, of Covington, two nieces, Mrs. Elsie Borchert, of Covington, Mrs. Nannie Kiser, of Shawhan, and two nephews, James and Edward Batterson, of Bourbon county.

The funeral was held Saturday morning at ten o'clock, with services conducted at the grave in the family burying ground, near Shawhan.

### **HALEY**

The body of J. W. Haley, who died in the Ford Memorial Hospital, in Georgetown, Friday night, from injuries received while at work on an electric light line, was brought to Paris on a special interurban car from Lexington, Sunday afternoon, and interred in the Paris Cemetery. The funeral party, accompanied by members of Covenant Lodge, I. O. O. F., of Lexington, came to Paris in special interurban cars. The funeral service at the grave was conducted by the Odd Fellows. The pall-bearers were J. M. Stevenson, A. L. Henry, James Sorrell, Wm. Vance, R. T. Benton and W. F. Tipton.

Mr. Haley is survived by his wife, three brothers, J. P. Haley, of Leavenworth, Kansas, J. A. Haley, of Columbus, Ohio, and Fred Haley, of Versailles, and four sisters, Mrs. Agnes Apperson, of Norwood, Ohio, Mrs. Jos. Teal, of Augusta, Mrs. R. W. Marrs and Miss Ida Haley, both of Lexington.

Funeral services were held at the Arlington Christian church, Sunday afternoon at two o'clock, conducted by Rev. Mr. Crawford, pastor of the Felix Memorial church, and Rev. J. E. Wilson, pastor of the Arlington church.

## **EDITORIAL FLINGS OF THIS, THAT 'EN 'TOTHER**

Another champion male charmer has been found who confesses to twenty wives, and, as usual, every man who looks at his picture wonders why the women fell for him.

The Federal, suburban, State, international, nonsectarian, municipal, cosmopolitan and industrial income taxes are almost due. That's only eleven different kinds. They'll think of more next year.

Whom have you buried in your sepulchre of hate? Looking down into that vast grave, the tomb of one at least as good as yourself, your petty whims ought to dwarf into nothingness.

That rule forbidding university girls to wear skirts that end more than six inches above their shoe tops perhaps explains why so many oxfords are being shipped out West.

Scientists have invented an invisible light. Now if they'll discover an inaudible sound and an indistinguishable odor, we shall look up to them without the slightest feeling of humiliation.

Some Paris people who are "too tired" to attend community meetings and do a little public work, are the same ones who complain that "there is absolutely nothing doing in a little county town like Paris."

The "camel walk" is said to be the worst offspring of the jazz music, but that is a Sunday School picnic compared with the wiggle-waggle drag the banks will cause most of us to step about the first of March.

A Paris physician says the drinkers of moonshine whisky spin around like a top. When a man is with his wife, it might be just as well from now on, in greeting him, to dispense with the heretofore harmless salutation, "Hello, old top!"

Our neighboring counties are spending a lot of money on good roads, which will be paid for by future generations fifty years after the roads are worn out. Bourbon county citizens are awaiting the coming of airplanes into commercial use, when good roads will not be needed.

That physician who appears as the most recent missionary of the return to normalcy in feet would accomplish more with the young ladies if, instead of picturing to them the horrors of broken health resulting from high heels and narrow shoes, he could convince them that foot health was fashionable and possessed attributes of beauty and smartness.

It is strange to us that some organization in this country should have seen cause to call a jury of 1,500 preachers to pass judgment on ladies' dress. The verdict of a hung jury was to have been expected in advance. Many women from all ages, from Mother Eve down, have worn just what they pleased, and not even the judgment of a preachers' jury will lengthen their skirts, collar or sleeve one eyelash.

Money is scarce in this section, but a visit to the Latonia race track at the coming spring meeting will convince the most skeptical that there is still plenty of money from somewhere.

The old adage of "a half loaf of bread is better than none," is going to be thrown in reverse by the tobacco growers. The slogan is "A half crop of tobacco is better than a full crop."

There is something fascinating in the sight of a fire department making a run to a fire. It is irresistible to old and young. No matter whether it is the meager equipment of a torkwater town or the splendid motor-propelled fire fighters like the Paris fire department has, the attraction is the same. We have seen staid old business men leave street cars in Cincinnati and run to a fire with as much zest as the urchins following in their rear.

## **BOURBON MAN CLAIMS BEST EGG AVERAGE**

Some time ago there was published an article telling of fine egg averages made by hens. One of them was an average of 14.7 eggs a hen for the month of December produced by hens belonging to Mrs. J. T. Wilson, of Henderson county. Chas. A. Duncan, of Paris, claims he can present a better report. Mr. Duncan reported an average for December of 14-9-24, and for January an average of 16.5 eggs per hen. Mr. Duncan has a large flock of Rhode Island Reds, and mixes his own feed.

# **Small Farms at Auction** **ON TUESDAY, MARCH 1**

At 10:30 O'clock A. M.

We will sell to the highest bidder the Kenney Farm, located on the Houston pike and the L. & N. Railroad, about three-quarters of a mile from the Maysville or Paris Pike, nine miles north of Lexington. This farm contains 68 acres, on which is located a well built six room frame cottage on stone foundation, good stable, hen house, carriage house and good fences. There is a large cistern near the residence and a good artesian well. There are also several ponds and a never failing spring on the farm. It has a long pike frontage and can easily be subdivided into small tracts.

Interurban stop No. 34 is just one-half of a mile from the farm, and there is a station on the L. & N. at the corner of the place. Schools and churches are close. The location, therefore, is ideal.

At 2:30 P. M. on the Same Day

we will sell to the highest bidder a small place, containing 17 acres, located on the Todd's Road, one-quarter of a mile from the Richmond pike, and a mile and one-half from the city limits of Lexington. This place is improved with a five-room frame cottage, stable and other outbuildings.

These farms are being sold to settle the estate of Mrs. Juliet P. Kenney and will be sold without any reserve whatever to the highest bidders. Possession MARCH 1, 1921.

TERMS—Easy and will be announced at sale.

—The Pastor's Aid Society of the Presbyterian church will meet today in the church parlors. A full attendance is desired.

—Rev. Father Thomas Coleman, pastor of the Church of The Annunciation, in this city, will deliver the Lenten sermon to-night in St. Luke's Catholic church, in Nicholasville.

—The "Father-and-Son" banquet held at the Christian church last night was one of the really enjoyable events of the kind that has been held here recently. Covers were laid for three hundred guests, and there were no vacant places. The ladies of the church served an elaborate two-course supper, to which the assembled guests paid their respects. Rev. W. E. Ellis, pastor of the church, presided as toastmaster.

The principal speaker of the evening was Rev. Dr. Peter Ainslie, of Baltimore, Md., who has just concluded a successful revival meeting in the Richmond church. Rev. Dr. A. W. Fortune, of Transylvania College, and Rev. Honer Carpenter, pastor of Richmond Christian church, who were expected to be present and deliver addresses, were unable to come. A musical program of excellent selections was also a feature of the occasion.

## DOCTORS EVERYWHERE

Recommend The Use of Camphorated Oil and Menthol Creams For Relieving Coughs, Colds, Croup, Catarrh, Pneumonia and All Congested Conditions.

The best form in which to apply a remedy of this kind will be found in MINTOL which not only contains Menthol, Camphor, Oil of Eucalyptus and many other healing and antiseptic oil, but also contains germinicidal properties which kill the grip or influenza germ. If MINTOL is applied to the nostrils it sterilizes the nose and acts as a preventive as well as a cure for colds and catarrh.

If you will apply a little MINTOL about the size of a bean to the back of tongue, it will sterilize the throat and relieve hoarseness, coughs and all throat troubles. When applied externally to the throat and chest it will break up congestion and prevent or relieve Croup, Whooping Cough and Pneumonia.

It is not necessary to use old-fashioned blisters which are often times either very disagreeable in odor or cause soreness and annoyance to the patient and those attending them. MINTOL will be found the most effective, modern scientific treatment for all inflamed conditions. A jar in the home will protect the whole family from Coughs, Colds and often times prevent Pneumonia. If your druggist cannot supply you we will mail you a jar on receipt of price—35c, 60c and \$1.25. The Home Relief Laboratories, Boston, Mass. (adv)

### Shoe Three Feet Long.

The latticed snowshoe resembles in a general way a large tennis racket, with the handle missing. The body of the shoe is two or three feet long and twelve inches or more wide at the broadest part, says the American Forestry Magazine. The rim is of ash, hickory or elm. The ski is made of beech, birch, maple, ash or spruce.

## U. S. MAINTAINS AIR LEADERSHIP

Good Performances Offset Decreased Production and Contraction of Industry.

### LONG FLIGHTS SUCCESSFUL

Clear Federal Policy to Aid Progress of Commercial Flying Is Still Lacking—Year's Feats Are Recorded.

New York.—America has successfully maintained her leadership in the navigation of the air, so far as heavier than air craft are concerned, despite the lack of aerial laws, landing fields and other such handicaps, according to a review of the year 1920, issued by the Manufacturers' Aircraft association. The review says:

"Decreased production and a general contraction in the aeronautical industry generally is offset by the more encouraging records of performance made in American aviation this year. While the last twelve months have not brought the carefully outlined policy of federal jurisdiction required to assure steady and economical progress in commercial aviation, they have witnessed many remarkable achievements by American pilots in American machines."

### Year's Performances.

Then follows a long, detailed list of performances, among them the following:

"Commander A. C. Read, hero of the transatlantic flight in the NC-4, commanded the same flying boat on a noteworthy expedition from Rockaway, L. I., down the Atlantic coast, along the gulf coast and up the Mississippi river to Cairo, Ill. When the NC-4 returned to Rockaway January 27 last it had flown 7,740 nautical miles. Three of the four Packard Liberty engines had operated without trouble during the 118 hours in the air, the fourth more than eighty-two hours. Along the Mississippi the motors were run on commercial gasoline picked up from point to point en route. Read reported that the greatest difficulty encountered was lack of proper maps.

"Compared to long-flight attempts conducted by European governments the American ventures were particularly successful. No less than four expeditions attempted to fly the 5,206 miles from Cairo to Capetown, South Africa. Colonel P. Van Ryndveld and Major C. J. O. Brand finally completed their flight on March 20, 1920, in a DH-9 plane sent up by the government of the Union of South Africa after their Vickers-Vimy machine had crashed. They had set out from Cairo February 10. None of the machines that started reached Capetown.

"Different success attended the Alaskan flying expedition of the United States Army Air service. Four Gallaudet remodeled DH-4-B planes, each powered with a single Liberty motor, and each carrying two persons flew from Mitchell Field, L. I., to Nome, Alaska, and return in 112 hours flying time, a total distance of 9,000 miles, without a motor missing fire or other accident serious enough to delay the party. Rain and fog caused most of the difficulty in flying over country not even charted on the maps.

### Operation of Air Mail Service.

"The Air Mail in 1920 operating between New York and Washington, New York, Cleveland, Chicago, Omaha, Salt Lake City and San Francisco, transported approximately one hundred million letters at ordinary postage rates. The system was extended in 1920 from Chicago to San Francisco, from Key West, Fla., to Havana, Cuba, and from Seattle, Wash., to Victoria, B. C. About thirty-five air mail planes are in the air each day flying a total, in round trips, of about 8,000 miles.

"During the year the navy has been making an aerial survey of the Panama Canal zone.

"The geological survey has cooperated with the marine corps in mapping the coastline of Hayti. American seaplanes, Curtiss, Aeromarine and Boeing types, have operated on passenger routes in China.

"Major R. W. Schroeder, flying an American designed and built Packard-Lepero biplane, went up from McCook Field, Dayton, Ohio, on February 26, and reached the world's record altitude of 33,000 feet."

### EXECUTE 4 FOR FLOUR THEFTS

Polish Soldiers Found Guilty of Stealing Nine Sacks From Army Are Shot.

Cracow, Poland. — Four soldiers found guilty of having stolen nine sacks of American flour from army supplies were shot recently.

The executions were carried out under a law passed by the diet last year, making it a capital offense to steal from the army. A fifth soldier, also court-martialed, in connection with the flour theft, was sentenced to prison, as it was shown that he had taken a minor part in the affair.

Coal Mining Took Heavy Toll of Life. — Washington.—More than 1,500 men lost their lives in coal mine accidents in the first nine months of 1920, according to a report of the United States bureau of mines.

## LIVE LIKE ANIMALS

Six Thousand Refugee Greeks Reported in Fearful Plight.

People at Batum Lack Clothing and Shelter and Are Dying at Rate of From 35 to 50 a Day.

New York.—Six thousand Greek refugees at Batum, Transcaucasia, their clothing worn to shreds, are "living like wild animals in dens" and dying at the rate of from thirty-five to fifty a day, writes Dr. W. E. Rambo, a Near East Relief worker of West Philadelphia, Pa., in a report from the Black sea port received here.

In what he calls "a tragic exodus that bids to become historic," Dr. Rambo says the Greek government already has repatriated 20,000 who emigrated from the Near East to colonize Thrace and that from 10,000 to 12,000 remain to be transported from Batum back to their homeland.

Most of these, he says, are physically strong, but the 6,000 refugees from other regions who flocked to Batum in the expectation of relief have been in that city five months, waiting in vain for help, their condition daily becoming more desperate on account of the rigors of the present Georgian winter.

The Greek government, Dr. Rambo explains, disclaiming responsibility for the plight of the people, has undertaken, through humane considerations only, to feed and doctor the refugees, but, so far, has declined to transport them to Greece, on the ground that there is insufficient housing there to shelter them.

"Meanwhile," the letter says, "the 6,000 are overcrowded in barracks unfit for human habitation. The families have no privacy. Some are lying in bed day and night because they have no clothing to protect them from the cold or cover their nakedness. Unless speedy relief comes to these people, most of them will die during the winter. Already the remnants of the original refugees are in despair. One of them said to me: 'We are no longer waiting for ships; we are waiting for death.' Of 5,767 in this party in the beginning, only about 2,400 remain—3,367 are dead. Another party of 6,800 has 2,800 survivors—4,000 are dead. Of the survivors 700 are ill."

### CORONATION DRESS FOR SALE

Gown Worn by Empress Marie Louise to Be Offered at Auction in Paris.

Paris.—The beautiful dress worn by Empress Marie Louise, second wife of Napoleon, on the day of her coronation as empress of the French will be sold at auction shortly.

The dress is made of exquisite lace, made by the French lace workers of Calvados, to whom Napoleon himself sent the design.

It was stolen from the Tuilleries during the riots of the revolution of 1848 and found its way to the Galliera museum. The empress was the daughter of Emperor Francis I, of Austria-Hungary.

### Prison Sentence for Baby 11 Weeks Old

London, Eng.—Prison for a baby 11 weeks old was decreed by Sir Forest Fulton, the recorder of Old Bailey. The baby's mother was found guilty of bigamy.

"What is to happen to my new-born child?" she asked when sentence was imposed.

"He can go with you and be none the worse for your detention," the recorder replied.

### She Was Indian Fighter.

Williamson, W. Va.—Aunt Letitia Ferrell, aged one hundred and four, the oldest woman in West Virginia, is dead here. She lived at one place for more than eighty-five years and was never fifty miles away from home. When her parents moved here she was a young woman and she helped them fight the Indians.

### THE DEBT OF WEALTH.

No matter what a man has of wealth or power, whether it be large or small, the possession of it makes him a debtor to his generation. The artist does not paint for his own satisfaction, the singer does not sing for her own entertainment, the preacher does not preach for his own edification, and by the same tokens the citizen does not exercise his franchise for his own selfish interests, nor should the captain of industry or the laborer at his work prosecute his daily tasks that he may acquire means to be used solely for his own selfish desires. Everyone has something that someone else needs and must have, writes Dr. James E. Freeman in an exchange. Anything that we possess of wealth, talent or genius, that will in any wise enrich the world or our neighbor, must be brought into service. There are rich poor men and poor rich men. The former have so deadened their emotions and finer impulses as to render their hearts as stone. The latter have so used the few or small gifts they have as to make them valuable.

Forty protesting Englishmen are credited with the intention of sailing from England in quest of an island home in the South seas, where they can be free from fiscal oppression. Most of them are said to be club men, while the schooner of these political pilgrims will sail the Spanish Main rigged up with all the comforts of a club on Piccadilly. The leader believes that their home will be on the Marquesas, familiar, more or less, through Robert Louis Stevenson's journeyings. It is a well-founded trait of protesting communities, however, that the conditions they would most like to escape are the very ones which they set up under the new regime, says Christian Science Monitor. The proper time to adjudge the latest refugees from oppression will be when they begin to impose the taxes necessary to meet the economic demands of the new colony.

A geological map of Iceland by Doctor Thoroddsen, who has spent many years on the work, gives much information about one of the world's most wonderful islands, which few visitors ever see. An example of the strangeness of Iceland is furnished by the volcano Katla. This is buried under immense snow fields, but from time to time its fires burst through the glittering blanket, and then such floods are poured from the melting ice that a great stretch of country between the volcano and the sea is inundated and huge masses of ice are carried out into the ocean. It is unsafe to cross the territory lying between Katla and the sea, so suddenly come the floods.

New York society is much stirred up over the marriage of an heiress there to a policeman. There is little warrant for the disturbance, says Baltimore American. A good policeman is much more useful to society than even an heiress, and the latter may feel with justice that she is getting the best of the bargain.

A telephone conversation over 4,000 miles by wireless has been held, establishing a world's record for distance. Some man calling his wife up, we suppose, to tell her transportation was so bad that he wouldn't be home till later in the evening.

The controller of the currency says that the average man carries ten or fifteen dollars in his pocket every day. That's because lunches cost more than they did a few years ago when the average man carried 50 cents and his carfare.

It is said that there are more than 25,000,000 widows in India. It is evident, then, that the girls of India haven't much of a chance.

### UTAH'S GREAT COAL BEDS.

So many contradictory statements have been made with regard to the coal supply in the United States that the public now pays little attention to them. Various reports from government sources, however, indicate that there will be coal for a while longer, and that the people need not be alarmed over the situation. As a matter of fact, an inspector of the United States bureau of mines recently investigated the coal resources of Utah and found there two mines of bituminous coal in beds of such great thickness that their exhaustibility was considered to be hardly within the range of calculation, says Christian Science Monitor. He declared these beds the thickest of the kind in the country. It seems reasonable to expect that coal will be utilized for heat and power for many years to come, the conservation measures to insure against waste and to bring about a larger development of hydro-electric power are likely to lessen the demands upon the coal mines.

Two girls wanted pretty things they couldn't afford and forged checks to buy them. The rest we all know. We know, too, the customary moral whose truth cannot be gainsaid that pretty things aren't worth that price. But perhaps the moral for the girls isn't the only moral. "They live in the same world the rest of us live in; they get their standards from general range of standards about them. In that way they have come to believe in the transcendent importance of pretty things, says Milwaukee Journal. Have we all been in a conspiracy to give young girls such a false sense of values on this earth? Why don't those of us who have had the pretty things speak up oftener with the truth—that they're the merest fringe of life and when we hug them to our thoughts, it's to help ourselves forget that we're losing out on the big things?

The ex-kaiser has written his book on the war, placing all the blame, of course, upon England. The book, so far, has only been privately circulated in manuscript. It will probably be published in the regular way some day; but if it shouldn't be the world needn't worry much—nor should Wilhelm himself. The same news columns in which we gathered the above news contained a dispatch from Berlin setting forth that more than \$24,800,000 have been paid to Wilhelm by the Prussian government since he fled into Holland. That should be enough to keep a struggling author out of the poorhouse.

Greece has called Prince Paul, aged nineteen, to the throne, which recalls the lament of John Knox that God to punish Scotland had called boys to rule it, says Baltimore American. The famous fanatic was mistaken as to the source of the call, but none the less do all the nations just now need mature judgment in their government.

The miners' strike in England interfered seriously with the movement of apples from Nova Scotia. No country can any longer live unto itself. The world is one big community, and we are all more or less affected by the actions of our neighbors, even though they live thousands of miles away.

The reported scarcity of jobs in the larger industrial centers is probably due in part to the tendency of some job holders to believe that it is time a man should give a day's work for a day's pay.

## MILLERSBURG

Washington's Birthday will be observed here to-day by the closing of the banks and postoffice.

Miss Aline Thompson, of Louisville, is a guest of her niece, Mrs. Amos Stampler, in this city.

Mrs. J. Clarke Leer and little son, J. Clarke Leer, Jr., left Wednesday for a visit to friends in Noland, W. Va.

Mr. E. D. Baldwin has moved from the farm of Mr. P. L. Dammitt to the home of the same on South Main street here.

Miss Olive Fisher, dean of the M. C. faculty, has returned from a visit to her sister, Miss Ethel Fisher, in New York City.

John Hill was given the Master Mason degree in Amity Lodge, Friday evening. The work was done by Earle Plummer, W. M.

Mrs. G. R. Wilcott and children left Friday for their home at Lexington, after spending several days with Mr. and Mrs. M. D. Hurst.

The Millersburg basketball team went down in defeat Saturday night before the onslaught of M. M. I. second team, losing by a score of 18 to 5.

Mrs. William Parker underwent a slight operation at Massie Memorial Hospital, Paris, Saturday, returning to her home Monday, much improved.

The students and faculty of Millersburg College, in costume, received and entertained their friends and patrons at the college last night from 8:20 to 9:30, in honor of Geo. Washington's Birthday.

Miss Nannie Louise Best and little nephew, Dodd Best, Jr., have returned to their home in Lexington, after spending the week-end here as guests of Mrs. Sallie Miller and Mr. and Mrs. A. S. Best.

Rev. B. F. Adams, pastor of the Methodist church, entertained the members of the Men's Bible Class at the parsonage. Out-of-town guests were Rev. C. H. Greer, pastor of the Paris Methodist church, N. R. Bradley and Cletis Chipley, of Paris.

**THE SICK**—Mesdames Anna Darnell, Fannie Norton, Clara Shanks and Mrs. Elizabeth Day con-

tinued about the same. Miss Alice Courtney is improving nicely. Mrs. Minnie Rule is threatened with pneumonia.

The M. M. I. basketball team was entertained at a six o'clock dinner Friday night at the Lafayette Hotel in Lexington by Major Nelson and was accompanied by John Marr, of Millersburg. After dinner they attended the Centre-State basketball game at Lexington.

Mrs. Sallie J. Mann received a letter from her niece, Mrs. Ethel Wallace Siler, of Franklin, North Carolina, announcing the death there of her husband. Mrs. Siler will be remembered as Miss Ethel Wallace, a former student and teacher in Millersburg College.

The Parents' and Teachers' Association of the Millersburg Graded School met in the library of the school Friday at 8:00 p. m. The meeting was an interesting one. A short program was rendered by the student body in the rooms of Misses Clarke, Crisp and Kerr, which was enjoyed by all. The program was humorous in parts, and the three rooms acquitted themselves in a most creditable manner. At the close of the program Prof. Lancaster, president of the P. T. A., called the meeting to order. After explaining the object of the meeting the minutes of the previous meeting were read by the secretary, Miss Hazel Kerr. This was followed by reports of committees, and the appointing by the chair of several new committees. Miss Harris, State Organizer of the P. T. A., delivered an interesting address. She classes Millersburg as one of the best organized associations in the State, and complimented our beautiful grounds and suggested a prize should be offered to the school for the one giving it the best name, as such beautiful grounds as these should bear another name other than the Millersburg Graded School or Millersburg High School. She also suggested that the organization become a part of the State and National organizations. Immediately after her address a motion was made, seconded and carried that the Millersburg P. T. A. become a part of the State and National organization, after which the meeting adjourned. The committees are expected to get to work at once on the tasks allotted them, and to do as much work as possible before the close of the present school year.

## STONE—LESLIE.

The marriage of Mrs. Carrie F. Stone, of Paris, and John F. Leslie, of Huntington, West Va., was solemnized in Lexington at eleven o'clock Saturday morning, at the home of the officiating minister, Rev. Mark Collis, of the Christian church.

The groom is chief electrician for the Chesapeake & Ohio railroad, with headquarters at Huntington, West Virginia, where he has prepared a nice home for his bride. Mrs. Leslie, who is a professional nurse, will go to Huntington as soon as she is released from duty at the Massie Memorial Hospital, in this city, where she is professionally engaged. This is her third matrimonial venture. Mrs. Leslie is a sister of Lee Deaver and Mrs. Robert Langston, of Paris.

## JUDY—TINDER.

The wedding of Louis C. Tinder and Miss Willie Judy was solemnized in North Middletown, at two o'clock Saturday afternoon at the home of the bride's parents, Mr. and Mrs. B. F. Judy. The ceremony was performed by Rev. F. M. Tinder, pastor of the North Middletown Christian church, father of the groom. The wedding was a quiet affair, only members of the immediate families being present. After the ceremony Mr. and Mrs. Tinder left for a honeymoon trip to Cincinnati. On their return they will reside at the home of the groom in North Middletown.

The groom is the son of Rev. and Mrs. F. M. Tinder and a young man of fine character. His bride is a handsome and attractive young woman. Both have a large circle of friends who extend hearty congratulations.

## THE DESTRUCTION OF THE CITY STREETS

The constant destruction of the streets of Paris by heavy trucks creates a problem which the city must face. If the city has not the power to protect the streets against this misuse and abuse, it must get that power. It is the belief of THE NEWS that there is a power inherent in any municipal organization, whether or not it is expressly defined in the charter and the statutes, to protect public property against destruction by any user.

We limit the rights of citizens to dig up the streets for the purpose of making water or gas connections. We allow this only under certain conditions and certain restrictions, but the big trucks, running over our streets, directly do more damage in a few hours than a man with a pick and shovel would do if he started deliberately to dig into the streets for the same length of time. It is only a common sense proposition that property that has been created by the taxes of all the people may not be destroyed or used wastefully by an individual taxpayer, who contributes only a fraction of the amount to the payment of the total charge.

It is the belief of THE NEWS that the city authorities would be justified in absolutely prohibiting the use of our streets to the heavy traffic, that, in particular, that has been going over them in the past few weeks, and that whatever hair-splitting litigation that might be engaged in, the city would, in the long run, win the litigation or, at least, would not suffer material loss through claims for damages. The legal authorities, however, seem to doubt the power of the city to protect itself in this manner.

If we haven't the power now, we must get it at the first session of the Legislature. It is a ridiculous absurdity that the people of the city should vote bond issues and should tax themselves generously to build new streets and to repair old ones, and have those streets destroyed almost as rapidly as they are built.

The turning over of a new leaf is the symbol of a fresh start and a higher aim.

## MOUNTAIN PEOPLE HOLD AN OATH SACRED.

Religion and the oath are two of the most sacred things to the mountain men and women and their regard for them is one of their greatest virtues, in the opinion of Judge W. T. Davis, who for eleven years has presided over the Circuit Courts of Harlan and Bell counties. "A few years ago," said Judge Davis by way of illustration, "a mountain woman came to my office in Pineville and accused her husband of associating with other women and doing a number of things that were wrong. The man was brought in and they were given a chance to talk things over. The man denied the charges. Then the woman applied the test of the oath. She told him that if he would swear before the Clerk of the Circuit Court that none of the things was true she would believe him. He took the oath and they left the office reconciled. This is but a sample of their regard for the oath. The woman believed that if her husband was willing to swear that he was innocent his assertions were true."

## MARKET ABROAD FOR COAL FROM KENTUCKY IN PROSPECT

Kentucky coal will be sent abroad by way of Charleston, S. C., if plans started at the meeting of the Tidewater Exchange, Inc., held in Knoxville are carried out, according to R. E. Howe, of Middlesboro, who was elected a member of the executive committee. An effort is being made to induce railroads in Eastern Kentucky to increase their facilities for hauling coal to the Atlantic Seaboard, operators contending that because of this they are not able to operate their mines as fully during the present depression as they could if export facilities were better.

The day is too dear with its hopes and aspirations to waste a moment upon yesterday.
